

NEANN

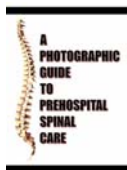

LONG SPINE BOARD

The Neann Long Spine Board is the most advanced designed extrication Board on the market, offering many features including:

- Improved curve for:
 - greater patient comfort
 - greater side support in extrications
 - greater access to hand grips
- Longer length for taller patients
- New shoulder attachment points for improved immobilisation
- End handles to assist in extrications
- Extremely thin for easier application
- Fibreglass design for easy cleaning
- No inserts to interfere with patient sliding
- No metal allows x-ray & CT compatibility
- New design Improves safety when carrying
